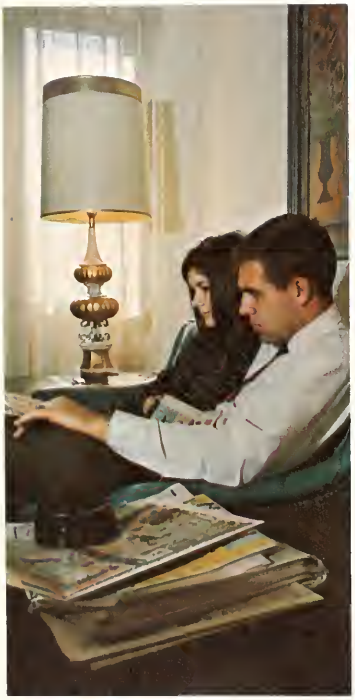
then as the vast fingers of time releases them,
let us view old sweet memories.



Can they replace this swift and ever-changing scene with their immensities?

I want to face the strange, the modern, and I do. It means the progress that man has always sought and this is good, for time cannot stand still . . .

Have you seen the new seal?

Is it after five?

A shot at the old master.

DENTISTRY

SENIOR CLASS OFFICERS: **left to right:** Charles Harmon, Historian; Hayden Allen, Secretary-Treasurer; Asa Lee, President; Ronnie Brown, Vice-President.

Dentistry 1969

FRESHMAN—1965—gross lab and gross ... who is the heavy this week ... wax it up and hand it in ... word for today ... matter of somatics ... W/P ratio just like New York City ... guest-host relationship ... hello ... what could be lower than a freshman dental student ... only 11 more quarters to go ... Hawks at M E B ... optional ADA membership ... slump test ... dead frog ... gnugk ...

SOPHOMORE—1966—very fortunate ... South American calypso and stand up ... who knows what category XXLVI/a is ... mother and the staph ... 19 D's and number 2 in the nation ... deliberate intent ... shades of grey ... monos or polys ... that 10% of the class that never gets it ...

JUNIOR—1967—show me the mouth ... sir, may I be of assistance to you ... Errerr x-ray ... mesical marginal ridge ... ADA convention and Caulk bus ... starting check for occlusal and then ZOE ... will it fit ... green cloud ... tape recorder and beep beep ...

SENIOR—1968—we don't believe it ... I'm just as sorry as I can be ... win a race on a wooden leg ... PP feels faint on TV ... catch the bear ... Goldie in the chart room ... starting check for MOD, DO, OL, DI = Tuesday ... I'll check it off but I wouldn't want it in my mouth ... plaster bowl ... climax ... marriages ... summer clinic in Denmark ... moustache ... Hawaiian merger ... 4 years plus 4 years plus—will it ever end ... graduate acceptance ... Armed Forces ... Graduation at last ...

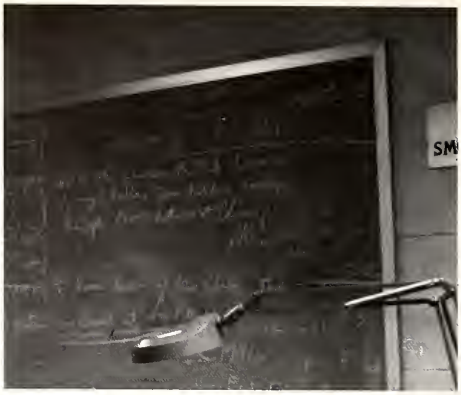
"Yes, I use Ultrabrite."

The leisure life of a dental student.



Lost and Found.

Lunch break.

Educational TV.

How come, if I only did it a little?

Now that everybody's gone, Francis . . .

I'm just as sorry as I can be Mr. Horton, but we can't carry you all year.

Out to lunch.

Sutures for Dr. Bear.

Lead with your left.

Treatment planning.

The hair.

It's a real heart breaker.

"Hey! Where's the prize?"

Surveying the case.

Blow in my ear and I'll follow you anywhere.

"Just as soon as I clean my nails, Mrs. Adams."

I think I've got it, too.

Set 'em up.

GRADUATE STUDIES

Graduate Studies

In the beginning ... a new challenge ... college is ancient history ... very soon feeling old ... tired ... when do I sleep? ... tomorrow night I'll catch up ... too much to do now ... test in a week ... no more studying the night before ... 5 chapters to know!

... must find an advisor ... who do I like? ... who is a good guy? ... who does research I might enjoy? ... who? ... think of a research problem ... good enough for a doctoral dissertation? ... committee member selections ... more course work.

... must keep all professors happy ... make no enemies ... complain a little ... a lot ... about almost everything ... worry why he didn't like your 91 ... always try to do better ... school dance or study? ...have to relax sometime ... when? ... when do they let up? ... party at Dr. Edward's farm ... very nice people ... always a lot of fun ... championship volleyball games ...

... found a research project ... sure it's never been done before? ... yes ... no ... I'd better hit the library again ... no, never before ... committee approves ... get started ... test tubes are expensive! ... dogs too! ... experiments go wrong ... then right ... literature reviews ... write ... write ... write ...

... Comps!!! ... writtens ... endless questions in not enough time ... orals ... can I bear the anxiety? ... finally over ... two tons off my back ... work on dissertation ... approval ... final oral ... I'm an authority? ... the end? ... not by a mile! ...

... new and greater responsibilities ... teaching ... research ... new challenges ... again.

At the beginning of a long hot summer ... after three and four years of college ... we came and found medical technology to be ... few hours of daylight ... white uniforms of a "professional" length ... well worn white clinics ... navy blue sweaters ... no additional accessories ... microscopic eyestrain ... bridge games ... learning how to "stick" on lab partners ... happiness of getting blood in the tubes ... a clotting time that takes over an hour ... sticking the fifth donor ... discovery of a rare parasite egg ... remembering what media is used for culturing a specific organism ... forgetting the tourniquet ... blood cultures from right and left arms of the same patient ... upsetting can't gets ... attempting to be pleasingly firm with a screaming six year old ... ten patients to stick on a Saturday morning ... work on a Sunday for no pay ... getting your rubber glove stuck in the tourniquet of an isolation patient ... working on a leg without the rest of the body attached ... mechanical minds to reason with the machines ... white blood cell counts that won't check ... a "perfect" blood smear ... urinalysis with its "pleasing" odors ... hoping for a coffee break ... making sure you have the correct reagents, mixtures, dilutions ... one week of working nights ... answering numerous comprehensive questions ... and finally graduation and on our own.

Acknowledgements

Our sincere thanks to everyone who contributed in any way to the 1969 X-Ray. Special thanks to our advisor, Miss Betty Morrow for her support. Our deepest appreciation to our photography editor, S. Weldon Brown, for all the pictures and the long hours he spent working on this edition. Special mention to the section editors, their helpers, and the business staff for their time and hard work.

We would like to express our gratitude to Mr. Gladding, Mrs. Morris, and other Larrick workers for their cooperation and concern. We are particularly grateful to Danny DeFalco of Taylor Publishing Company for his advice and willingness to help. Last but not least, thanks to John Broadwater for his contributions to the color photos and for the fraternity pictures seen in this book.

Our usual apology for misspelled names, unflattering pictures, and other errors involving one's self-image.

Vepco's first commercial atomic power station is now under construction in Surry County, Virginia. In the new Information Center overlooking the site, you will see an excellent slide presentation, fascinating exhibits, and a working model of the reactor. (And from the balcony, you can watch them assemble the real thing.) Open 10 AM to 4 PM Monday through Saturday and 1 PM to 6 PM on Sunday. For tour information call 771-3194 in Richmond.

Bioblend® Teeth make any denture look more natural.

Bone-like enamel. Wrap around translucency. Internally blended color. These are just a few of the esthetic refinements which distinguish Bioblend from all other artificial teeth. The result: Bioblend Teeth are now being used more often for complete dentures than any other teeth in the world. *Any other!*

Available in porcelain or plastic.

The professional's professional.

You.

In pharmaceuticals, yesterday's information can be obsolete tomorrow. Men of medicine need someone who speaks their language to keep them up to date. Which is where you come in—the professional's professional. And, they'll listen when you talk because the Upjohn name means quality to them. Not only in products but in the men who represent them.

If you welcome a challenge in the pharmaceutical field and if you are the kind of man who wants to earn respect and responsibility in his profession, then Upjohn may be the place for you. Our policy of promoting from within can give you a career that grows with the industry. Our immediate personal benefits are most attractive.

For information about a career with Upjohn, write to L. C. Hoft, Director, Domestic Pharmaceutical Sales, The Upjohn Company, Kalamazoo, Michigan 49001.
